John McSorley Telephoned the News Thursday Night.

WABASH PLANS OUTLINED

COMPANY DECIDES ON VIGOR-OUS CAMPAIGN.

Manager R. G. Wilson of the New York Bonanza property at Park City York Bonanza property at Park City received word from the mine Thursday night that the cross-cut from the 200-foot level in the shaft had tapped the vein, but sufficient work had not been done to tell much about it when the information was telephoned down. The news came from John McSorley, foreman of the Daly-Judge and one of the directors of the New York company, who visited the mine on that day. He reported that there was no question but what the vein had been reached, as the mineralized quartz was coming in nicely.

CAMPAIGN AT WABASH.

but what the vein had been reached, as the company of the company of the company of the company of the contact has been from the shaft down to a connection with the vein, but the delays incident to getting the new hoist decided the management to cross-cut on the 200 level. The vein has been found at a distance from the shaft that fully bears on the calculations of Manager Wils and the work of 200 tect in the shaft that fully bears on the calculations of Manager Wils and the work of the calculations of Manager Wils and the work of 200 tect in the shaft that fully bears of the company and the work of 200 tect in the shaft that fully bears of the company and the work of their deliberations the work work has been caught at a batten spot it will not be many days until the word comes that the New York has ore. If the cross-cut fails to disclose it no great amount of drifting will be necessary to catch the chute, any how. Developments will not be many for the week ending Jan. I consisted of 106 carloads of ore. The Grand Central forwarded forty-one cars to market during the five days previous to the last, and year-derivation of the work will be continued to the limits of the company is governed and it will be continued

### REPORT FROM SHEBA.

Mill Machinery on the Ground-Kescel Manager of Mill and Mine.

ecretary Child of the Sheba com Secretary Child of the Sheba company is in receipt of advices from camp which indicate that the new year is being ushered in amid scenes of the greatest activity. The machinery with which to equip the mill is now arriving on the ground and Manager James T. Kescel has the work of remodeling the plant well in hand. On the first of the year, Mr. Kescel assumed the management of the company's mines as well as the mill and, with Fred Lewis, formerly superintendent of the Red Wing, at Bingham, as his foreman, he promises a vigorous and telling campaign from now on.

The new year began on the mining exchange yesterday with a strong undertone to the market and a business that had a genuine ring to it. Nearly every stock in the active list sold at better prices than have prevailed for some time past, the higher priced stocks particularly showing splendid form.

During the day a total of 30,350 shares, with a selling value of \$40,607.25, changed hands, Daly-Wort and Daly-Judge being prominent participants in the total building. The former opened at \$41 and closed on sales at \$41.35,

W. J. Dooley Preparing to Incorporate Valuable Claims.

Will J. Dooley has long held interests at De Lamar, Nev., including the Sunbeam and Dockstich claims, lying between the Magnolia group and Monitor claim of the Bamberger De Lamar Gold Mines. Itor claim of the Bamberger De Lamar Gold Mines company, as well as a quarter interest in that company's Millionaire claim. Yesterday afternoon he declared his intention of combining his own and other adjoining properties and making them the basis of a new company which he will form during the

making them the basis of a new com-pany, which he will form during the next few weeks.—
Earlier in the day he offered to sell his holdings to Manager Bamberger of the big company named, and the new company enterprise is a result of his not being able to strike a bargain with Mr. Bamberger. The claims controlled by Mr. Dooley are said to cover the great be Lamar lode, and, with propgreat De Lamar lode, and, with properties which they adjoin, he expects to round out a company of more than usual merit.

### FROM PIOCHE.

Copper and Gold Claims of Manhat-

tan Company Being Developed. Ed F. Freudenthal, manager of the Manhattan company's properties at Pioche, came up from the south yesterday and, his business concluded, he expects to return tonight. For the past few weeks, he reports, the company has been developing a new ledge in its prop-erty at Stampede Gap and a gold prop-erty which it owns in the Pioche mounerty which it owns in the Ploche mountains. At the former he reports having opened up a four-foot ledge of copper ore in a contact between porphyry and lime which, at a depth of fifteen feet beneath the surface, assays 15 per cent copper. The ledge, he says, is most eligibly located, and he is more than confident that he is going to make a big copper mine of the property.

On the south slope of the Ploche mountains he has begun developing a monster gold ledge that samples on the surface \$7.50 in gold per ton. He expects that property to develop into the biggest kind of a cyaniding proposition, as very little work will open up a veritable mountain of ore.

### NEW MINING TOWN.

D. & R. G. Building It at Its Somer-

set Coal Mines. Six months ago, the town and village of Somerset, Colo., like Enoch, "was not." but the timely discovery of a remarkable vein of coal by Robert Forester, geologist of the Denver & Rio Grande railroad, has been followed by a development of its riches, which has been so rapid and thorough as to win the admiration of all those who are sound in the belief that western men can "do things" and that no portion of this land is being built on a surer or more lasting foundation of real wealth

than this and the neighboring mountain states.

A sixty-mile mountain wagon haul from Delta to Somerset has, since the 1st of April last, been superseded by a well built narrow gauge railroad, which, on the 2nd of last month, reached the mouth of the mine. The narrow canyon through which the north fork of the Gunnison runs is alive with engineers, miners, clerks, storekeepers, and the many other workers that are always identified with a new camp. Bridges, dykes, culverts and level roads add to the attractiveness of the rugged scenery.

The hand of mean has seen the since the support of the support of the since the since the support of the since the support of the since the support of the support of the support of the since the since the support of th

The hand of man has come to subjuate and to establish a union of forces that will bless. The construction period, a remarkably short one, is now over; tents are being replaced by houses; depot, store, hoisting works, chutes, and all the paraphernalia and equipment of an important and successful mining town are already contracted for.

the vein on that level has been thoroughly prospected.

"We have done sufficient work in the mine aiready," said Mr. Treweek, "to demonstrate that we are practically on top of the ore bodies. For a time we shall continue to do our work in the veins by drifting, cross-cutting and sinking. As soon as we have located the ore bodies the main shaft will be sent on down and resular working levesent on down and regular working levels will be established. In the winze now being sunk we expect to make 100 feet a month, so it will not take us long to reach the contact. Work in every portion of the property will be pushed just as rapidly as possible."

### MINING STOCK MARKET.

New Year Opens to Good Business and Advancing Prices.

The new year began on the mining

mand and for the single 100 shares that was finally loosened up the purchaser had to pay \$5.35.

Century did business at a little better than 90c; California rose from 25c to 26½c, and Carisa moved up to 19c. Lower Mammoth was practically unchanged at 69c, as was also May Day at 16½c and 17c. New York also remained in about the same position that it occupied on Wednesday, and Wabash kept it company in that respect.

Uncle Sam was another of the stocks that were sought during the calls, but holders were loth to part with it. The few shares which changed hands brought 25c. Martha Washington also stiffened up and sold at 3c to 3%c per share, while for 100 Yankee Consolidated, the purchaser was required to pay 50½c.

Following is the list of final quota-ions and the record of sales made: | Forenoon. || Afternoon.

The articles of incorporation of the Big Mitt Gold Mining company of Salt Lake City were yesterday filed with the county clerk. It's capital stock is \$15,000. The par value of the stock is 5 cents. The company will operate the Pacific mining claim, in the Little Cottonwood district. P. C. Kittle is president. ident; A. W. Clayton, vice president; E. H. O'Brien, secretary; W. J. Wolstenholme, treasurer. The new company's property adjoins the New State, near the mouth of Little Cottonwood canyon.

### Ore and Bullion.

Ore and bullion settlements in this city yesterday, as reported by McCornick & Co., amounted to \$64,400, as follows: Silver, lead, gold and copper ores, \$36,600, base bullion, \$17,700; gold bars, \$10,100. Metal Market.

Silver, 48% cents per ounce. Copper, 11½ cents per pound: New York, \$1.95 to \$12.05 per 100 pounds. Lead, \$3.50 per 100 pounds.

Mining Notes. The Grand Central will be in the market today with fourteen cars of ore.

Loui E. Bamberger left for Beaver county on mining business last evening.

The Conklin sampler was yesterday in receipt of nineteen cars of ore from Tintic.

jestic company's bonanzas returned from his trip to Denver yesterday aft-ernoon. He will probably leave for

camp this evening.

Manager Will J. Dooley of the Johnny received word from camp yesterday that the new year was celebrated by blowing the whistle at the new mill. Stamps will be dropping, he says, by the 15th.

The Ben Butler company has four carloads of first-class ore on the market today. Manager Jacobs reports the mine to be looking well and expects to make a good record for production during the month.

After an absence of several months from the city, H. L. J. Warren came in from the east yesterday to remain several days. He was being greeted on all sides by his numerous friends here during the afternoon.

Arthur Parsons, metallurgist at Bamberger's De Lamar mines, left for camp again last night, after enjoying the holidays at home. General Manager Bam-

berger expects to leave for the prop-erties on Monday night. erties on Monday night.

At a meeting of the directors of the Park City Superior company, held yesterday afternoon, it was decided to discontinue work in the fissure which branched off from the tunnel and continue the latter straight ahead for the contact, which should be reached in considerably less than 100 feet.

Business which brought him down concluded, Joe S. Free, manager of the Park City Gold & Silver Mining company's property, in the Snake Creek district, Park City, returns to camp today. He says the shaft is still going down in the vein, with nice stringers down in the vein, with nice stringers and bunches of ore making in the mass of ledge matter. At a depth of 150 to 200 feet he expects to drop into a solid body of pay ore.

body of pay ore.

John Dopp, the veteran Tonopah operator, who is largely interested in the New York and the Philadelphia-Tonopah companies, came in from an extended trip to New York and Philadelphia a day or two ago, and foday leaves for the east again. He reports the liveliest kind of interest in the Tonopah mines in the eastern financial centers, where recent developments in the camp have caused all kinds of rejoicing.

N. A. Page's Market Letter.

In sympathy with an improved metal market, prices have taken an upward turn. More buying orders are in evidence and there is little if any forced selling. Daly-West sold at \$41.35 and Daly-Judge at \$10.25. Callfornia sold higher, closing 254. Century is still supported at 90. Con. Mercur is stronger at \$1.75. There is a sharp demand for Daly at better prices. Grand Central is strong at \$5.25, and Mammoth close to \$2. Lower Mammoth, 69 to 70 cents; Martha Washington, 3½c; May Day, 17½ asked; Sacramento, 29½. New York and Wabash are very active at former quotations, Naildriver and Lone Pine are in demand at better prices. On the whole the market looks very strong and healthy.

Vienna, Jan. 2.—Precise details of the higher Austrian duties will be determined upon within a fortnight. The duties on both grain and manufactured articles will be considerably increased which is likely to seriously affect both the United States and Great Britain, who are respectively the third and second largest exporters of manufactured articles to Austria. It is thought here that Great Britain will be the greater sufferer since the United States is better able to protect herself by adopting retailatory measures.

### THISTLES AND DANDRUFF.

An Interesting Parallel and a Valuable Deduction Therefrom.

tinue the latter straight ahead for the contact, which should be reached in considerably less than 100 feet.

F. H. Lathrap returned from a several days' stay at the properties he and associates are developing in the vicinity of the Old Hickory and O. K. mines of the Majestic company in Beaver county, yesterday morning. He says that everything is humming along the big copper belt and the new year promises many important disclosures aside from those being made in the older mines of the district.

Business which brought him down concluded, Joe S. Free, manager of the Park City Cold & Silva Wining comp.

Sixty Years' Experience of an Old Nurse.

# pretty big undertakings in those dig-BULGE IN STOCKS

New York, Jan. 2.—The trading on the stock exchange started off with great animation this morning, and something like a buige in prices. Buy-ers of Tuesday and Wednesday took advantage of the rise to secure their profits. Prices ran off under this proc-ess, and the market became dull. The 

the cessation of the demand for cables to meet the year-end settlements in London, which was a feature last week. The London market showed its usual prompt response to the turn of the year, and money and discounts made added declines under the abundant offerings in the market. This was accepted as a hopeful indication of a light demand for the future from the center upon New York. Preliminary figures of the week's currency movement, which runs up to Wednesday night, indicate that the banks have gained more than \$3,200,000 on the regular express movement with the interior, while the sub-treasury has tak-

might, indicate that the banks have gained more than \$3,00,000 on the regular express movement with the interior, while the sub-treasury has taken from the banks \$1,429,000, this indicating a net gain of about \$1,900,000 for the banks.

The week's grain exports were disappointing, while the imports of dry goods at New York rose in value several hundred thousand dollars over those of last week, and exceeded those of this week last year by over \$600,000, thus explaining the large customs collections of the week. The stiffening of the call loan rate late in the day in the return of funds to the channels of the New York money maring the late advance in this stock was unexplained. Other statements of November earnings showed gross increases more than wiped out by incorporating expenses. Louisville rover \$20,000, left over 900; 5@10c lower; stock was unexplained. Other statements of November earnings showed gross increases more than wiped out by incorporating expenses. Louisville and St. Paul, however, showed moderate gains remaining. But these stocks were rather more affected by realizing than others. The announcement of the profit sharing plan of the United Stats Steel corporation caused a sharp rise in the preferred stock. Amalgamated Copper continued to advance on the rise in copper, but reacted sharply. Brooklyn Transit was somewh; terias in copper, but reacted sharply. Brooklyn Transit was somewh; terias in copper, but reacted sharply. Brooklyn Transit was somewh; terias in copper, but reacted sharply. The early firmness in the bond market gave way to an irregular tone in sympathy with stocks. Total sales, par value, \$3,350,000.

United States bonds were all unchanged on the last call.

| Chicago, Jan. 2,-    | -Wheat ruled quiet   | ı  |

Chicago, Jan. 2.—Wheat ruled quiet and lower, with a good deal of long stuff on the market and but little demand. Northwest receipts were much in excess of those of the corresponding time last year. Advices from Argentina reported favorable harvesting weather, and a report was current that offerings of wheat from Russia were more liberal, on rungers of the specific reopening at margatten on the Danule. Offerings continued very free during

the entire session, and the market de-clined, gradually closing easy. May opened ½c lower at 75½c, and sold be-tween 75½075%c and 76½076½c, clos-ing %c lower at 75%c.

The corn market was rather dull, but

The corn market was rather dull, but firmness prevailed at the start, or unfavorable weather in the west. Large estimated receipts for tomorrow were a bear factor. May closed at 1/2c lower at 33%c.

The chief feature in the provision market was the marked gain in January pork, caused by active covering by shorts, which resulted in an advance of from 25 and 71/2 to 50@521/2c at the opening, sales being 17.75 to 18.00. The close was easy with January pork 35/371/2c higher at 17.55. May pork was 71/2c lower at 16.30; lard 10@121/2c lower at 9.40@9.421/2, and ribs down 71/2 at 8.571/2 at 9.40@9.421/2, and ribs down 71/2 at 8.571/2

### When You Come Up Town

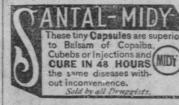

These cold, wintery days, you'll need something warm to send the blood coursing through your veins. We have hot Beef Tea, Clam Bouillon, Hot Lemonade and all kinds of winter refreshments. Our everture of the cold that the cold ments. Our oyster cocktails are real invigorators.

A. C. Smith, The Druggist

Opposite Herald.

I suffered with indigestion so much that life was a burden. friend asked me if I ever used pans Tabules. I did so and they worked fine. I had been doctoring for a long while, but never got such relief as with this medicine. I told my doctor about them. He said they were all right.

At Druggists, The Five-cent package is enough for an ordinary occasion. The family bottle, 60 cents, contains a supply for a year.
